

Sheikh Muhammad Sabih

Flutter Developer | Software Engineer

Karachi, Pakistan | [+92 334 7476341](tel:+923347476341) | sabih.sk1@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

Experienced Mobile App Developer with 4+ years in cross-platform development using Flutter and Swift. Proven ability to transform Figma designs into high-performance iOS and Android applications. Skilled in API integration, performance optimization, and full-cycle mobile app development including testing, debugging, and documentation. Delivered scalable mobile solutions with 100K+ downloads and integrated AI-driven features to enhance user experience.

Skills

- Flutter | Dart | Firebase (Authentication, Cloud Firestore, Realtime Database, Cloud Storage)
- Google Maps
- Mobile UI/UX Design Principles | Asynchronous Programming
- State Management (Riverpod, Provider, BLoC)
- Architecture (MVVM, Clean Architecture)
- Object-Oriented Programming (OOP)
- REST APIs | Push Notifications | Background Services
- Android & iOS Development
- Version Control (Git) | GitHub
- AI/ML: Agentic AI, RAG, Chatbots, API Integrations

Experience

Software Engineer II

Xloop Digital Services (Pvt) Ltd | Feb 2023 – Present

- Built real-time UI customization using low-code backend for Saudi NEOM Project
- Implemented scalable UI with Riverpod and Flutter for seamless UX
- Integrated Firebase and RESTful APIs with advanced error handling
- Optimized app performance and responsiveness across iOS & Android platforms
- Collaborated with design team to convert Figma mockups into mobile UIs
- Leveraged AI tools to enhance app features and user experience
- Contributed to Agile sprints, code reviews, and technical documentation

Mobile Application Developer

Leopards Courier Services (Pvt) Ltd | Jun 2022 – Feb 2023

- Re-architected core app (Hum Leopard) with offline-first and real-time UI features
- Developed version check system and improved app security
- Improved app performance through async programming and optimized state management
- Integrated RESTful APIs with robust error handling and seamless backend interaction
- Conducted app testing, debugging, and performance tuning for large user base

Projects

Semi Solution Hub - Roadside Assistance App

- Connected stranded drivers with mechanics/tow services
- Features: service booking, real-time tracking, secure payments
- End-to-end Flutter dev with Laravel backend integration

EZ Estimator - Estimate calculator app

- Cost calculator for construction professionals
- Solo developer: app design, feature dev, backend integration

Autotel Live - Vehicle Tracking

- Real-time GPS tracking for fleets & individuals
- Enhanced legacy app: performance fixes, UI updates, geofencing

Namaz Ki Kitab (Personal Project)

- Achieved 100K+ downloads, 19K+ active users
- Built in Flutter with custom UI, PDF viewer, bookmarks, auto-resume
- Managed entire lifecycle: design, dev, publish, update

AI & Backend Projects

- **AppPilot – RAG Chatbot (Bank Alfalah):** Python-based chatbot using retrieval-augmented generation for banking queries
- **ShopGPT – E-commerce Comparison Bot:** Chatbot that searches Amazon, eBay, Walmart and compares prices in real time
- **BotXpro – Conversational E-commerce:** Built a full chat-driven shopping platform: product search → checkout via chat

Education

FAST University Karachi (Ongoing) – MS

In Progress

Major: Computer Science

Sir Syed University of Engineering & Technology (SSUET) – CS

2022

Major: Computer Science

Certifications

- Flutter with Firebase
- Data Engineering Bootcamp

Languages

- English (Professional)
- Urdu (Native)
