

Sheikh Muhammad Sabih

Python Developer | Backend Engineer | Data Engineer

Karachi, Pakistan | [+92 334 7476341](tel:+923347476341) | sabih.sk1@gmail.com | [LinkedIn](#) | [GitHub](#)

Summary

Experienced Python Developer with 4 years of professional software development experience, specializing in backend systems, cloud deployment on AWS/Azure, and intelligent chatbots. Delivered LLM-powered applications BotXpro (Generative AI chatbot), AppPilot (RAG chatbot), and ShopGPT (e-commerce comparison) using FastAPI, LangChain, OpenAI APIs, and ChromaDB. Skilled in FastAPI, Django, Docker, and AWS for backend development and deployment, with additional experience in data engineering workflows, ML models, and mobile application development using Flutter.

Skills

- Languages: Python, SQL, Dart (Flutter – additional experience)
- Frameworks & Libraries: FastAPI, Django, LangChain, Pandas, NumPy, SQLAlchemy
- Cloud & Infrastructure: AWS (EC2, Lambda, S3), Azure (Data Factory), Docker, CI/CD
- Databases: PostgreSQL, MySQL, Redis, SQLite, ChromaDB
- Data Engineering Tools: Apache Airflow, Apache Spark, Snowflake, ETL/ELT
- Development Tools: Git, GitHub, VS Code, Postman, Linux, Bash scripting
- Others: API Integration, Microservices, Streamlit, Kafka, Prompt Engineering

Experience

Software Engineer II

Xloop Digital Services (Pvt) Ltd | Feb 2023 – Present

- Developed and deployed AppPilot, a RAG-based chatbot with full backend functionality.
- Co-developed BotXpro, an AI-driven conversational commerce platform using LLM APIs.
- Designed and implemented secure authentication systems and RESTful APIs.
- Deployed scalable backend services on AWS with Docker-based containerization.
- Managed orchestration of workflows with Apache Airflow and real-time data with Kafka.
- Integrated advanced chatbot capabilities with LangChain and external APIs.

Mobile Application Developer

Leopards Courier Services (Pvt) Ltd | Jun 2022 – Feb 2023

- Re-architected core app (Hum Leopard) with offline-first and real-time UI features
- Developed version check system and improved app security
- Improved app performance through async programming and optimized state management
- Integrated RESTful APIs with robust error handling and seamless backend interaction
- Conducted app testing, debugging, and performance tuning for large user base

Projects

BotXpro – Conversational E-commerce

- Built a chat-driven shopping platform supporting product search to checkout.
- Integrated LLM APIs with LangChain for conversational flows and external API calls.
- Deployed with FastAPI ensuring scalability and reliability.
- Stack: FastAPI, LangChain, OpenAI

AppPilot – RAG Chatbot (Bank Alfalah)

- Designed backend for a retrieval-augmented chatbot for banking queries.
- Implemented RAG pipelines with LangChain and ChromaDB search.
- Developed and tested backend API with Django for smooth client integration.
- Stack: Django, LangChain, OpenAI, ChromaDB, AWS

ShopGPT – E-commerce Comparison Bot

- Built chatbot to compare product prices across Amazon, eBay, and Walmart.
- Integrated LLM + LangChain for multi-platform query handling.
- Exposed APIs through FastAPI and connected to a Flutter frontend.
- Stack: FastAPI, LangChain, OpenAI, Flutter

Wheat Yield Prediction (Backend)

- Created backend with ML model integration for crop yield predictions.
- Designed APIs with FastAPI for model inference and database access.
- Stored results and datasets in PostgreSQL for retrieval and analysis.
- Stack: FastAPI, Python ML, PostgreSQL

BookingTime Web Application

- Built a scheduling and booking management system with FastAPI + PostgreSQL.
- Implemented JWT-based authentication and secure API endpoints.
- Deployed manually on Linux SSH (EC2-like) using NGINX, Gunicorn, Uvicorn.
- Integrated with a React.js frontend for user interface.
- Stack: FastAPI, PostgreSQL, JWT, React.js, NGINX, Gunicorn, Uvicorn, Linux/SSH

Additional Mobile Projects (Flutter)

- [Semi Solution Hub](#) – Roadside Assistance App: Service booking, real-time tracking, payments.
- [EZ Estimator](#) – Construction Calculator: Cost calculator for professionals.
- [Autotel Live](#) – Vehicle Tracking: GPS tracking, geofencing, fleet monitoring.
- [Namaz Ki Kitab \(Personal Project\)](#): 100K+ downloads; custom UI, PDF viewer, bookmarks.

Education

FAST University Karachi (Ongoing) – MS

In Progress

Major: Computer Science

Sir Syed University of Engineering & Technology (SSUET) – CS

2022

Major: Computer Science

Certifications

- Data Engineering
- Flutter with Firebase

Languages

- English (Professional)
- Urdu (Native)
